CDLC Presents Dr. Silvia Bettez,
Department of Educational Leadership and Cultural Foundations

Engaging in Critical Mentoring

In this interactive presentation, participants will consider what it means to engage in mentoring from a critical perspective, meaning one that entails ongoing reflection, questioning, and exploration of our assumptions, as well as attention to the inevitable relationship power dynamics. Mentoring practices will be shared with and elicited from participants. This presentation is based upon a recently published chapter:

Bettez, S. C. (2020) Walking the tightrope of self-care and critical mentoring: A minoritized scholar's reflexive account. In M. Sánchez and B. S. Waters (Eds.) *How we got here: The role of critical mentoring and social justice praxis* (pp. 88-106). Leiden: The Netherlands: Brill Sense.

For those interested, this chapter is available through the UNCG library ebook using this link: bit.ly/Bettez_Mentor
